About Us:

Must Games is a budding startup games development company with an arsenal of experience and seasoned veterans from major companies such as *NEXON*, *NCSOFT*, *Wemade*, and *Netmarble*. Established in 2017, we have grown from a humble group of four and we now boast fifteen members. With a combined of experience of over 100 years under our belt, we specialize in strategy games. We have been awarded the *Unreal Engine Dev Grant* in January 2018 for our upcoming game, *Rogue Universe*, which will be our fourth installment.

Game Features:

Build:

Rogue Universe features 3D spaceships that are customizable with various skins and modules. Each ship has a unique feature that can either help or hurt a mission. Explore the reaches of the universe by building an impressive fleet.

Loot:

Put your daring to the test by looting other players' resources. Raiding other players is one of many ways to get resources. But don't get too comfortable, you might be next so watch your back.

Conquer:

Conquer entire planets and even an inter-dimensional portal through guilds and strategic planning. Events will be held where guilds come together to take over an entire planet. Each player will have a chance to reap the rewards and it'll help to have friends in high places.
